The Nextcloud Enterprise Benefits

Nextcloud Enterprise gives professional organizations software optimized and tested for mission-critical environments.

Nextcloud Enterprise is pre-configured and optimized for the needs of professional organizations rather than home users. Nextcloud Enterprise undergoes additional testing and quality assurance with early critical bug fixes and hot fixes. In addition, you get:

Stability

- Additional testing and quality assurance
- Early critical bug fixes and hot fixes
- Upgrade stand-by: we ensure smooth upgrades with advice and help
- Support delivered directly by the Nextcloud engineers who wrote the software
- Dedicated support account manager
- Enterprise grade SLA up to 24/7
- Up to 5-10 years of long term support for stable Nextcloud releases

Security

- Early security patches
- Enterprise-grade security features and hardening
- Early notifications about critical security issues
- Pro active security consulting to review and harden your instance

Expertise

- Full proof of concept package where our experts help you integrate Nextcloud in your infrastructure
- Migration assistance: We help to migrate from your previous solution
- Access to enterprise documentation and the knowledge base
- Access to expertise around scaling, security and best practices
- Access to optional workshops and training

Influence

- Access to decision makers at Nextcloud
- Influence on road map
- Seat at the product advisory board

Functionality

- Custom integration
- Branding
- Outlook integration
- Access to add-ons from partner companies like: Collabora Online, ONLYOFFICE, Kaspersky, and many more

Compliance

- Guarantee that all code is secure, proven and certified for GDPR and HIPAA compliance
- Access to enterprise GDPR documentation and compliance expertise necessary for data requests
